Overview Operations **Revenue & riders**

Top drivers

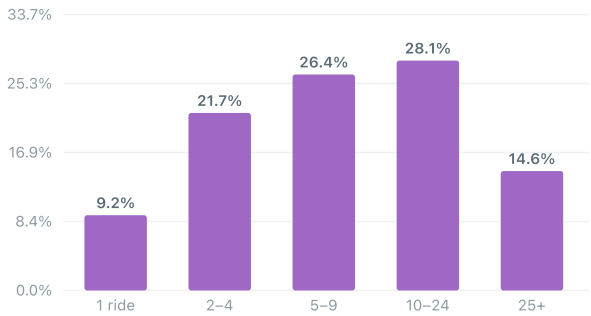

Drivers with at least 5 completed rides in the selected period.

Driver	Rating	Rides	Revenue	\$ / mile
Marcus Bell	4.94	412	\$14,820	\$3.60
Priya Raman	4.91	388	\$13,940	\$3.40
Diego Alvarez	4.89	371	\$12,610	\$3.80
Sofia Nguyen	4.88	344	\$11,980	\$3.50
James Okafor	4.86	332	\$11,240	\$3.30
Elena Petrova	4.85	318	\$10,870	\$3.70
Omar Haddad	4.83	301	\$10,120	\$3.40
Grace Kim	4.81	289	\$9,640	\$3.60

Dataset [rides_detail](#) · Table

Revenue by rider frequency

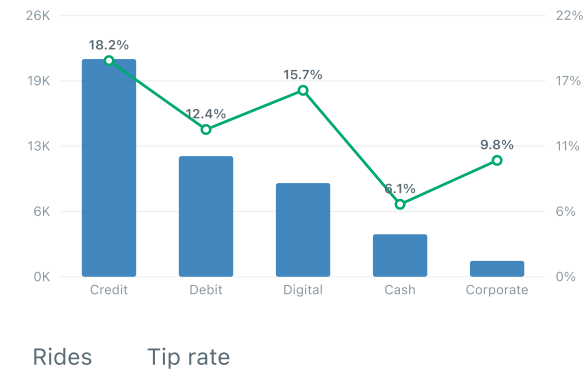

Share of revenue contributed by each usage band.

Dataset [rider_cohorts](#) · Bar

Payment method and tipping

Bars are ride counts; the line is tip rate as a share of subtotal.

Dataset [rides_detail](#) · Combo

Fare per mile by vehicle type

Average revenue efficiency across the fleet.

This is a layout reference, not live data. Every number here is synthetic. Rebuild each widget in Databricks against the dataset named at the bottom of its card — the card titles, subtitles, chart types and grid spans are the parts worth copying.
